Education

Vellore Institute of Technology, Bhopal

2020 - 2024

- CSE Core | CGPA: 8.28

Skills

C++ | CSS | TypeScript | Node.js | React.js | MongoDB | Redux | Next.js | REST | NuxtJS | PayloadCMS | AWS | Github

Work Experience

Stylabs Technologies | Junior Full Stack Developer

Aug'24 - Present

- Developed and optimized robust APIs to streamline data storage and manipulation using Node.js, TypeScript, MongoDB, and Next.js.
- Elevated website SEO, enhancing discoverability and performance across **30+ pages**, resulting in a **40% increase** in traffic.
- Built dynamic, CMS-powered landing pages using PayloadCMS and Next.js, enabling rapid content updates and improved user engagement.

Stylabs Technologies | Technical Intern

Feb'24 - Aug'24

- Architected a high-performance startup landing page using Nuxt.js and PayloadCMS, achieving an **85+ Lighthouse score**.
- Designed and deployed scalable REST APIs using Node.js, TypeScript, and MongoDB, integrating seamlessly with a Next.js-based admin panel, enhancing data management capabilities.

Com.Bot | MERN Developer Intern

Nov'22 - Feb'23

- Engineered backend APIs using Node.js, significantly enhancing platform connectivity and functionality.
- Seamlessly integrated **500+ third-party applications**, automating workflows and **boosting efficiency by 30%**.

Projects

ResumeRocket [Github](#)

Apr'25

AI-powered platform for resume optimization, tailored job applications, GitHub analysis, and cover letter generation enhancing job seekers' chances of success..

- Technology: Next.js, Node.js, Express.js, OpenAI API, AWS S3, Typescript, Tailwind, MongoDB, ShadCN UI
- Implemented interactive AI feedback tools that boosted user retention by **25%**, including real-time resume suggestions and PDF export.
- Developed a **TypeScript-based Node.js API** with microservices handling resume parsing, grading, and tailored cover letter generation.
- Integrated **GitHub OAuth** and project analysis engine summarizing top repositories by **stars, readme, and languages used**, enhancing personal portfolio insights.

Quizzzy [Github](#)

Jun'24

Full-stack quiz application built with React and Node.js, enabling secure user authentication, quiz participation, and progress tracking fostering an engaging learning environment.

- Technology: React, Node.js, Express, MongoDB, JWT, Tailwind CSS, Mongoose
- Developed a responsive and interactive frontend using **React**, enhancing user engagement by **20%**.
- Designed quiz and user profile modules with protected routes and **RESTful APIs**, enabling real-time point tracking and statistics.
- Achieved a **30% reduction in backend response time** by optimizing Express route handlers and MongoDB queries.

Co-Curriculars

Leetcode : Completed 250+ coding challenges, showcasing problem-solving skills and algorithmic proficiency. [Leetcode](#)

Codechef : Attained a Max 3-star rating (1601), signifying excellence in competitive coding. [Codechef](#)

Code Studio : Successfully solved 100+ coding problems, showcasing a diverse skill set and adaptability. [CodeStudio](#)

Additional Information

Languages

- English : Proficient in verbal and written communication.
- Hindi : Native language, fluent in both verbal and written communication
